

HPNS Radiological Data Evaluation Project Update - 7/17/17

Data evaluation - Draft evaluation forms for trench units in Parcels B, C, D-2, G, UC-1, UC-2, and UC-3 and fill units in Parcel B have been filled out and are under varying stages of internal and/or Navy review. Forms for Parcel B former building sites (soil) and Parcel G fill units are being initiated this week. The first pre-draft report for Parcel C trench units will be submitted to the Navy for review in July followed by a pre-draft report for Parcel B trench units, fill units, and former building sites in August.

Building scan data – Working on integrating a separate team for developing evaluation approach this month.

Work planning – The draft UFP-SAP was submitted to the Tiger Team for review 6/30/17 and no comments have been received to-date. The pre-draft work plan was submitted to the Navy and we are addressing initial comments this month.

National Lab - Oak Ridge Associated Universities and Argonne National Lab are under contract with Oregon State University to provide independent review.

Next call - Tuesday 8/1/17, 1000-1100 AM PT, potential topics:

- Progress update
- Parcel B trench unit data evaluation results
- Discuss any comments on draft UFP-SAP
